Economic Development Administration

***The Center for
Business and Economic Research***

M R C

Missouri Research Corporation

**Date: Tuesday - Wednesday,
March 31–April 1, 2009**

*This course is for those who are new
to ArcGIS or to geographic informa-
tion systems in general*

The training will cover:

- ArcGIS overview
- Spatial data concepts
- ArcGIS data model
- GIS software
- Spatial coordinate systems and map projec-
tions
- Querying data
- Map displays

Introduction to

ArcGIS 1

This two-day course introduces economic developers and emergency planning personnel to ArcGIS and provides the foundation for becoming a successful ArcView, ArcEditor, or ArcInfo user. Participants learn how to use ArcMap, ArcCatalog, and ArcToolbox and explore how these applications work together to provide a complete GIS software solution. By the end of the course, attendees will learn how to produce maps, reports, and graphs.

**This training is valued at \$500—
\$1,000 per participant. Don't miss
this opportunity to learn at virtually
no cost!**

About the Trainer

Mark Duewell is Program Manager for the Missouri Spatial Data Information Service (MSDIS) with the University of Missouri's Geographic Resource Center. He focuses on local government initiatives and outreach activities.

Mark previously worked for the Missouri Department of Health's Environmental Epidemiology Bureau where he conducted geospatial exercises in support of emergency response, mapping disease, superfund sites, and assisting in risk analysis studies. He also provided GIS training classes while there.
